

Our Nannies

Our nannies are selected on a basis of qualifications and experience, and are full of the initiative that Australasians are famous for. We are confident that any nanny you select through our service will become a valued member of your team.

We supply permanent and temporary nannies and mothers helps on a full time, part time, live in or daily basis. We are well known in the industry for our stringent selection procedure and will only promote candidates we believe will represent our company well. We always strive to find candidates who have qualifications and/ or age relevant experience for your children.

All candidates are required to have contactable childcare references and police checks . Where they don't have a current police check KiwiOz can take them through the application process. We are also well versed at dealing with OFSTED and the registration requirements, so we can help you and your nanny go through the process if required.

How does the process work?
