

Tax and PAYE

It is legal requirement that you organise the tax and national insurance for your nanny. You can do this yourself via the Inland Revenue, however many parents choose to use a nanny PAYE company.

A PAYE company will organise payslips and take care of all of your tax and NI obligations on your behalf. They usually charge around £150- £250 for a year of service.

Once you find your nanny you should start to organise your PAYE. Your KiwiOz consultant can help you with this so please don't hesitate to give us a call.
